Detachable Linings - Measuring Guide

Dunedin Curtain Bank can now provide detachable linings for your single layer curtains. These linings hook into the curtain tape of your existing curtains.

Please measure **drop/length and width** of your curtain/s, rather than the window size.

1. **Width:** close your curtains, ensuring they are pulled right across. Measure the width from the bottom of the curtain
2. **Drop length:** Measure from the top of the curtain to the bottom

Please use centimetres (CM) as the measurement. Be sure too to let us know how many linings you need of each size (i.e one set of curtains = 2 linings)

Dunedin Curtain Bank

174 Princes Street

Opening hours: Mon-Thurs 9am-4pm
